

Grade 4 Weekly Update

107 & 109

March 20, 2019

This week we will be continuing our review on this year's learned content applicable to the NYS ELA exam that is approaching.

This New York State assessment is taken in grades 3-8 and focuses on reading, writing and listening skills. The test is designed to show which students are performing at grade level and which students need further assistance.

There will be various activities that will aid in the students' readiness for the state test.

(We will be reviewing strategies on how to answer short-response, extended response, and multiple choice comprehension questions.)

**Our reading selection story for this week is:
Ecology for Kids.**

The link below contains practice passages (from previous years) and multiple choice questions for your child to complete at home for extra practice!

<https://www.engageny.org/>

The baby chicks have arrived!!!

In science we will continue to learn about the Barn Owl and baby chicks. As we gather interesting information about the chicks, the children will complete a mini report in class.

In religion we will continue to focus on The Holy Spirit and Lenten activities.

In math we will focus on: DECIMALS

REMINDERS:

March 22 – Spring Pictures

March 26 – Field Trip to Albright Knox

Thank you and have a great week!

Mrs. Gengo & Miss Kerwin

In science we will continue to learn about the Barn Owl. As we gather interesting information about the Barn Owl, the children will complete a mini research project in class. We will also be dissecting owl pellets.

In religion we will continue to focus on The Stations of the Cross and Holy Week activities.

REMINDERS:

March 28th - ½ Day for students

March 29th & 30th - NO SCHOOL

Thank you and have a great week!!
