

## Parent's Corner

In Reading this week we read the story, A Tree is a Plant. We reviewed the sound of -oo, -ou, and -ew this week. We also practiced with pronouns and ABC Order. We are becoming much better with remembering punctuation and writing complete sentences!

In Math, we began our chapter on two-dimensional shapes! We talked about squares and rectangles. We focused on the vocabulary words of sides and vertices and identified these attributes of each shape.

In Religion, we talked about Mary! During the month of May we remember our Blessed Mother in a very special way. Our classroom saint is Mary so this month is very special for us!

In Social Studies we continued learning about cultures from around the world. We talked about how many things that we do, eat and wear have come from other cultures!

In Science we the sprouting of our green bean plants! We have observed that these plants grow very fast and are now taller than our flowers!

On Tuesday next week the first grade will be leading our school Mass! Mrs. Reeser and I are very proud of our students for taking this great responsibility on. We will not only be reading the intentions and carrying down the gifts, but will also be the choir for the day! We have been practicing with Mr. Polen and picked some of our favorite songs to sing.

On our school website under the forms and permission slips tab, you will find the permission slip for our spring field trip. Please have this returned to school with the \$2 by next Wednesday, 5/15.

Next Friday is a half day of school. Dismissal is at 11:15am. We will be attending the Hope Ribbon Mass as a school at 9:00am that morning.

Happy Mother's Day!

Have a great weekend!  
Miss Schnackel
