### 5th Grade Reading

Our current reading selection is Lesson 13; "They Called Her Molly Pitcher". Typically it takes about 8-9 classes to get through the material associated with each story in a manner that promotes learning. We also have a list of 20-25 spelling words that students will usually test on once a week. Students will also be completing a book report using google slides. The book selected is to be either historical fiction or historical non-fiction. All books must be approved by me.

### 5th Grade Social Studies

Students are just finishing the last part of North America. We will be heading south in our studies starting with Mexico, Middle America, and the Caribbean. Their passports will be issued to them as they begin their journey visiting all the countries south of the US. They will be picking 3 countries to report on. This assignment with rubric will appear in Google Classroom when they start their journey.

### 6th Grade Social Studies Yasu (Hello)

We are studying Greece. We had our Greek luncheon last Monday. Mr. Canamella was our chief inspiration and provider for this event. He provided the idea and most of the food. The teachers and staff were overflowing with thanks for the souvlaki lunch. The food tasted great and the desserts provided by some of the parents were a real treat.
