

## **Ms. Ensminger's News**

Week of 5/13

**There is no track meet on Monday**, it will be rescheduled and you will get notice in advance. You are invited to join us for the dowel rod Mass on Tuesday at 8. The spring concert is Wednesday, details are on the website. Friday is a ½ day. We will celebrate the Hope Ribbon Mass with the eighth graders and then dismiss at 11:30.

6<sup>th</sup> Grade Science: Our volcano unit is off to a fun start. Next week we are going to talk about how silica affects magma, what a volcanic eruption is, what the stages of an eruption are, and how the land is shaped by volcanoes.

5<sup>th</sup> Grade Science: After a lesson on nerves, we will start the respiratory system. We will learn about all of the anatomy, and the function of each part. We will also discuss how the lungs move to make our body breath.

5<sup>th</sup> Grade Religion: Our projects are off to a great start. Our research is finished and we are building something to help us teach each other about the saint we chose. Our goal is to demonstrate how this person was a true servant of God.

Very Happy Mother's Day,

Ms. Ensminger
